

Attachment A - Construction Costs

Using the table below as a guide, respondents should include their per foot costs for construction. **Note:** All road distances may vary slightly. Composite pricing is expected to include all costs for completion of the system (i.e. conduit placement, fiber placement, handhole placement, marker/test station placement). Splicing costs should be included in Attachment B.

Proposals that cover all segments and provide an all-in cost for construction are acceptable and strongly encouraged. Additionally provide the unit based

Segment Name	Approximate Segment Miles	All-In Composite Price to Include Rock Adder (Cost Per Foot)	All-In Composite Price Rock Adder Not Included (Cost Per Foot)	Rock Adder Fee (Cost Per Foot)
Sample Data Segment - A to B	55.55	\$7/ft	\$5/ft	\$12/ft
Segment A Fort Davis to Montgomery	105			
Segment B Dothan to Phoenix City / Midway	133			
Segment C Montgomery to Alabaster / Selma	136			
Segment D Bay Minette to Elba / Florala	167			
Segment E Monroeville to Jackson Eutaw	139			
Segment F Ariton	2
